Sir:

Responsive to the Restriction Requirement dated November 7, 2002, the claim of Group I (Claim 3), drawn to a method of reducing non-specific binding of a target molecule to oligonucleotides on a surface of a solid support, is elected for prosecution. The Examiner has indicated that Claims 1, 2, 6-9 and 12 are linking claims for Groups I-III (Claims 3, 4 and 5) and will consider these claims along with the claim of the elected group. Applicants reserve the right to file a continuing application or take such other appropriate action as deemed necessary to protect the non-elected inventions. Applicants do not hereby abandon or waive any rights in the non-elected inventions.

Responsive to the requirement for an election of species for searching purposes, Applicants hereby elect photolabile protecting groups as the species in step (b) of Claim 1. Claims readable on the elected species are 1-3, 6, 7, 9 and 12.

Further responsive to the requirement for an election of species for searching purposes, Applicants hereby elect compounds represented by Formula II as the species in step 2) of Claims 6 and 9. Claims readable on the elected species are 1-3 and 6-9.
